The foreign market was better than expected, closing very steady at gains of 12 to 27 points, floats being around ton for the day. There was nothing new regarding labor troubles over there, but a better feeling prevailed as to peace negotiations. Spots were marked off 3 points, good middling to 18.18d, with sales 2,000 bales, including 2,300 American. Nothing was received.

First prices in the domestic parket were higher because of the census ginning figures, but profits were taken os the bulge. Old July opened 22 points to the kood, at 22.80, while the new was up 22 points to 22.35. The former dipped to 22.55, then resovered to 22.75 and later reacted to 22.30. The new dipped to 22.55, sold up to 23.05 when suporting orders came in but later receded to 22.52, where it stood in the middle part of the afternoon. The Memphis city water has been entirely free from any sort of contamination since Monday, March 10th, as shown by the most careful daily analysis by the City Chemist.

J. L. ANDREWS. Supt. Memphis City Health Dept.

On Sunday afternoon there was a break in the 12-inch main on Trigg avenue at I. C. R. R. bridge, caused by the street caving, due to excessive rain.

This reduced the pressure in the southeastern part of the city very materially. Although one million gallons of water an hour were

pumped into the mains, it was impossible to raise the pressure in this locality until the break was valved off and repaired. Owing to the continued flushing of the mains, the iron sediment is stirred up, and while the mains are almost clear of

this now, still it is impossible to prevent it from appearing at times in any part of the city. This discoloration of the water, however, is perfectly

NEW YORK COTTON.

NEW YORK March 20.—The report of the census bureau showing 11,885,138 running bales ginned for the season, or 12,822,601 equivalent 500-pound hales, compared with the government's estimate of 11,700,600 bales published last becomber, proved slightly over expectations. The market opened steady at an advance of 8 to 15 points on the new and of 22 to 32 points on the old style months on Liverpool buying, covering and a moderate demand from spot houses, but soon eased under realizing and acattered Wall street selling. New style July soid off from 22,95c to 22,79c and October from 21,43c to 51,32c right affer the call, or about 3 to 6 points net lower.

after the call, or about 3 to 6 points net lower.

The difference between the ginning figures and the estimate of last December appeared to be generally considered too slight to create any important sentiment. The offerings responsible for the early setback were soon absorbed in consequence, and the market firmed up toward the middle of the morning on reports of an improved export demand and builtsh advices from the goods trades. Old style months were very quiet, but new style May sold up to 24.90 and October to 31.50, or 22 to 28 points net higher. Reports of an easter spot hasts checked the advance of this level and the snarket was quiet around midday with prices showing reactions of 15 or 29 points.

points.

The early afternoon setback extended to 24.25c for new May and 21.02c for new October, or about 6 to 26 points net lower, but the market steadled toward 2 octock on covering with new style months showing recoveries of 19 or 15 points from the lowest.

New York — Recent buying enthusiasm has been based partly on hopes and partly due to the forced liquidation of old style contracts by the Lever amentment. While the liquidation of old style contracts has been practically effected, the advance based on hopes is not yielding the fruit hoped for, as the demand from either mills or exporters does not expand to the proportions expected, while the South shows a desire to sell more freely—Palion to Shepard & Cluck.

New Orleans—The census report ing on the stock exchange loday, spe-cial issues again being the principal beneficiaries. Industrial Alcohol, Ma-rine preferred, Harvester, American Sugar, American Can, Tobacco Pro-ducts, Royal Dutch and International Agricultural Chemical preferred, ad-vanced one to three points. U. S. Steel held secund yesterday's final quotation and investment rails showed no ma-terial change.

Shepard & Gluck.

New Orleans—The census report showing a total this last season of 11.

\$88,130 running bales, exclusive of linters, is bearish on its face, because it compares with 11.248.242 bales gained last year and 11.362.915 bales two years ago. However, compared with bearish expectations it is buillish, for the bears expected as high as 12.000,000 bales and some of the selling of the last few days was done to discount such guesses.—Shepard & Gluck.

New York—Locals still short. Cenand utilities provoked another re-tion of 1 to 3 points in the afternoon. S. Steel and rails also softened. Oils the only active stock to hold. U. S. Oils were the only active stock to hold, notably Mexican Petroleum, the two issues of royal Dutch and Sinclair Tractions led the broader seeling and sharper declines of the last hour, industrials also yielding on a report that the Washington conference had decided upon a drastic cut in steel prices. The closing was irregular. Sale approximated \$50,000 shares.

New Orleans.—The decline appears to be due to shorts taking a fresh grip on the situation. Some bearish traders are making much of the fact that New Orleans is now receiving cotton from New York. Yesterday 311 bales came in and Monday 1,535, the latter consigned to McFadden. This appears to be the cotton that is going on March contracts here.—Shepard & Gluck.
